

ULLR Matters Update March 13, 2025 History Matters with David Jones

On March 13, 2025, ULLRS explored a fascinating topic. The 1936 Olympics were known as the Nazi Games, with Hitler as political symbol and mega-producer. At first, the Olympics did not appeal to him, but his leadership convinced him of this as a prime propaganda opportunity for Germany's Nazi party.

Many Olympic traditions endure today including extravagant opening and closing ceremonies, the carrying of the Olympic torch from Greece and introduction of many of today's athletic events. David Jones is an excellent presenter who champions how history matters in our lives.

Join us for our final ULLR Matters lunch with a presentation by Darrell Thompson, President and CEO of Bolder Options. "Youth Leadership Matters" with their mission of "Teaching Youth to Succeed in all of Life's Races." Thursday, April 10, 2025. 11:00 at Pittsburg Blue, Galleria. See the ULLR schedule for details.
